26/10 Libby moved the knobs on each side of the street and worked out the totals by counting all of them. She was very proud of herself for using the '+' and '=' signs correctly when writing the calculation on the board.
Nov 09
Libby used the wooden shapes to make a picture of a rocket in the sky on night. When it was complete she counted the number of stars. She had used one, recorded it on a whiteboard.
32. Libby used the wooden cubes to make up her own pattern. She understood that a pattern keeps on repeating.
