MENTAL MATHS CHALLENGE CARDS

INSTRUCTIONS

YOU WILL NEED

1 set of 12 cards (print on card and laminate if possible)

1 answer sheet per child

SET UP

Place the cards around the classroom (or try school hall or playground!). Allocate each child a different symbol so that they start on different cards. It doesn't matter if there is more than one child starting on each card.

HOW TO PLAY

The children start by finding the card with their symbol on it. They need to solve the problem and write the answer on their answer sheet, in the box next to the symbol on the card. They find the next problem by finding the card with the answer to their last problem on it. If they cannot find a card they may need to check their answer!

They can then continue working through the cards in their own time until they have finished.
