- 1) Fernando has not regrouped correctly. When he did 2 (thousands) divided by 8, he should have regrouped the two thousands for 20 hundreds and written 24 hundreds. The same error has occurred with the remaining hundreds being regrouped for tens. The correct working and answer is as follows:

$$\begin{array}{r} 3 \quad 1 \quad 2 \\ 8 \overline{) 2 \quad 24 \quad 9 \quad 16} \\ \hline \end{array}$$

- 2) Daniel is correct.  $1540 \div 5 = 308$   $308 \div 7 = 44$
